

PRESS RELEASE

April 05, 2017

Invitation from Messe Berlin to the Mobility Cleaning Circle

International trade fairs InnoTrans and CMS are organising an exclusive networking event on the subject of 'Railway Clean-ing' on 21 September 2017 in Berlin

With an exclusive networking event Messe Berlin, organiser of the international trade fairs InnoTrans and CMS, will be bringing leading decision-makers together at an event focusing on 'Railway Cleaning'. The Mobility Cleaning Circle is taking place on the Berlin Exhibition Grounds on 21 September 2017 as part of the cleaning trade fair CMS 2017. Personal invitations have been sent to the CEOs of international transport companies and their senior buyers. The compact programme includes a business lunch with an introduction to the subject and an opportunity for initial contacts with leading representatives of the international cleaning sector. Afterwards the participants will be able to join a guided tour of the exhibitors at the CMS to see the relevant products on display. The Mobility Cleaning Circle is a special service provided by InnoTrans – the world's leading trade fair for transport technology. CMS Berlin 2017 - Cleaning.Management.Services. (19 – 22 Sept.) is the year's most important event for the global cleaning sector.

Cleanliness and hygiene are increasingly important competitive factors for the operators of railways and infrastructure. Travellers and passengers not only demand punctuality and a high standard of services but also clean trains and railways, as well as well-maintained stations and stops. The comprehensive overview of the market provided by CMS 2017 shows examples of the industry's innovative cleaning machines and equipment as well as its cleaning and disinfectant products for this sector.
