2024

159,230

In 2024, InnoTrans once again reinforced its role as the leading trade fair for mobility. Covering 200,000 sqm (gross) of exhibition space and attracting around 3,000 international exhibitors, the event presented groundbreaking innovations to 159,230 trade visitors from all over the world. This success story continues in 2026 when InnoTrans will open its doors again in Berlin on 22-25 September and serve as an important driving force for the future of mobility.

DEVELOPMENT OF THE NUMBER OF TRADE VISITORS

OUTDOOR/ BUS DISPLAY

Rail-bound vehicles for public and freight transport | Road-rail vehicles | Signalling systems | Buses, charging systems and electromobility | [And more](#)

MOBILITY UP CLOSE

An exclusive Outdoor Display covers 3,500 metres of track and showcases a full range of rail-bound vehicles. The Bus Display features the next generation of buses in real driving conditions on a 500-metre-long demonstration course. InnoTrans is where innovations emerge, and the latest technology comes to life!

VEHICLES IN TOTAL

Rail-bound vehicles for public and freight transport | Subassemblies and components: driving gears, energy-/electrical engineering, couplings, brakes, etc. | Services for vehicles | And more

RAILWAY TECHNOLOGY

TECHNOLOGICAL MILESTONES FOR RAIL OPERATIONS

The Railway Technology segment presents advanced mobility solutions that set new standards in the world of rail transport. The focus here is on technologies designed to optimise operations, improve safety and support the sustainability of entire systems – from modern-day vehicles to digital applications.

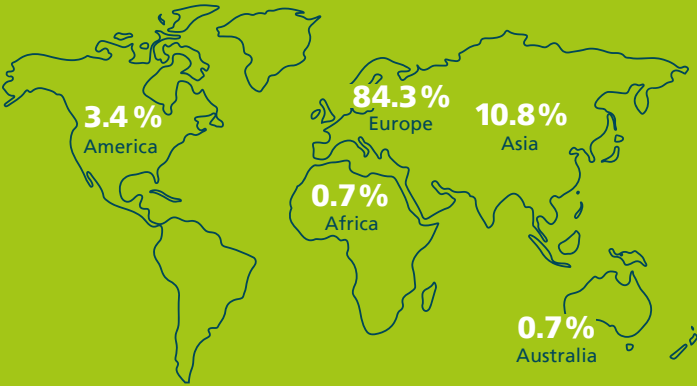

Construction work | Signalling and control systems | Planning and monitoring of construction works | Overhead line equipment | **And more**

RAILWAY INFRASTRUCTURE

THE BACKBONE OF FUTURE MOBILITY

Modern mobility demands a powerful infrastructure. Robust rail networks, state-of-the-art machinery and innovative materials are the key to smooth rail operations. The Railway Infrastructure segment is where exhibitors show how state-of-the-art technologies are setting new standards for efficient and future-proof rail transport.

consulting | Mobility+ for supplementary
mobility services | AI Mobility Lab | And more

NETWORKED, DATA DRIVEN, FUTURE FOCUSED

Convenient public transport systems require holistic concepts and intelligent solutions. The Public Transport segment highlights data driven approaches to improving efficiency. In the Mobility+ section, the focus is on supplementary mobility services. The AI Mobility Lab, which was introduced in 2024, concentrates on the potential of artificial intelligence in the mobility industry.

INTERIORS

SPOTLIGHT ON AESTHETICS AND COMFORT

Modern travel calls for comfort, cutting-edge services and appealing design. In the Interiors segment, exhibitors present pioneering innovations ranging from technical equipment and safety to travel catering and comfort services. All this adds up to a travel experience that meets the highest quality standards.

Tunnel boring machines | Construction products, machines and components | Safety features and finishing | Communication and maintenance | Services and consulting | [And more](#)

INNOVATIONS BENEATH THE SURFACE

Tunnels are essential elements in a modern transportation infrastructure. The Tunnel Construction segment is where the innovative strength and efficiency reflected in today's tunnel projects are impressively demonstrated by global industry players.

TUNNEL CONSTRUCTION

INNOTRANS CONVENTION

THE FUTURE OF MOBILITY IN DIALOG

The InnoTrans Convention is the main meeting place for visionaries and decision-makers from the worlds of transport, business and politics. This is where pioneering topics and innovative solutions are covered in a series of thought-provoking podium talks and panel discussions with themes that will shape the mobility of tomorrow and set the course for a connected future.

INNOTRANS INTERACTIVE

INNOTRANS PLUS – EXPERIENCE THE TRADE FAIR ANYTIME, ANYWHERE

InnoTrans Plus adds a digital dimension to the trade fair and enables exhibitors and visitors to participate at any time and from anywhere. This platform offers attractively designed exhibitor and product presentations along with numerous interactive functions for networking and sharing. When it comes to maintaining long-term contacts, organising appointments and accessing livestreams, InnoTrans Plus is the perfect tool before, during and after the trade fair. Registration is free, personal profiles can be customised and seamlessly linked to the InnoTrans app – which is also free of charge.

ADVANTAGES AT A GLANCE

- ✓ Quick registration
- ✓ Customisable personal profile
- ✓ Manage and update a personal contact list
- ✓ Comprehensive exhibitor and product overviews
- ✓ Organise trade fair appointments
- ✓ Chat with other users
- ✓ Simple search for all of the content on the platform
- ✓ Overview of supporting programs
- ✓ Livestreams of all the events

SPEAKERS' CORNER – STAGE FOR INNOVATIONS

In the five **Speakers' Corners**, exhibitors from the various InnoTrans segments can tailor presentations to their specific needs. From delivering a specialist lecture to hosting an interactive discussion, this platform offers a 60-minute opportunity to engage and inspire an international audience of industry experts with your products, services or key industry topics. All of the sessions are streamed live, expanding your reach to an even broader audience.

DIGITAL TRADE FAIR SERVICE INNOTRANS LIVESTREAM – JOIN FROM ANYWHERE

The complete InnoTrans supporting program can now be streamed live. Exhibitors also have the option to present their own content, such as product presentations or press conferences, as additional livestreams. All of the content remains available as on-demand videos afterwards.

SPECIAL THEMES

MOBILITY+ NETWORKED MOBILITY REIMAGINED

Travellers expect convenient, seamless connections from their doorstep to their destination. Complementary mobility services provide this flexibility by linking conventional modes of transport with innovative technologies, creating an all-in-one travel experience.

AI MOBILITY LAB ARTIFICIAL INTELLIGENCE FOR THE FUTURE OF MOBILITY

How is artificial intelligence transforming the transportation sector? The **AI Mobility Lab** demonstrates the potential of intelligent algorithms to enhance efficiency, safety and sustainability in mobility. From predictive maintenance and automated driving to intelligent traffic management, the industry presents the latest AI-powered solutions for the transportation systems of tomorrow.

TRAVEL CATERING & COMFORT SERVICES MAKE PEOPLE FEEL GOOD AND THEY WILL RETURN!

Travel comfort and catering services are playing an increasingly important role in rail travel. The **Travel Catering & Comfort Services** area of the **Interiors** segment focuses on high-quality equipment and service concepts for a pleasant travel experience. From galley systems and hygiene products to headphones, pillows and blankets – the emphasis is on well-being and hospitality.

RAILWAY INFLUENCER FESTIVAL

After a successful launch in 2024, the **Railway Influencer Festival** is returning to InnoTrans 2026! The leading content creators in the rail industry, exclusive networking opportunities and exciting insights into the future of mobility ensures this event is a real highlight. A unique platform for sharing information and inspiration emerges when innovation meets entertainment.

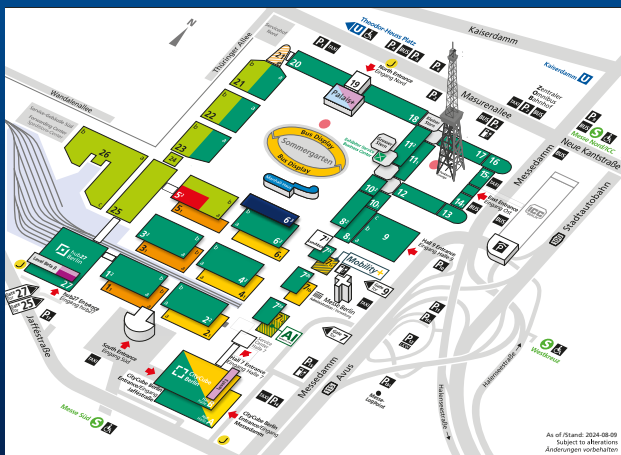

The mobility industry offers diverse career opportunities and exciting future prospects. InnoTrans supports the next generation and provides a platform through **RecruitingLAB**, **Jobwall** and **Talent Stage** for students, graduates and young professionals to explore career paths. Special highlight: The **Eurailpress Career Boost** offers five applicants from five categories an opportunity to present themselves to potential employers in 90-second timeslots as a direct path to their next career step!

BERLIN – THE PERFECT STAGE FOR INNOTRANS

As a leading international trade fair, InnoTrans takes place in an ideal location: Berlin. Germany's capital city not only plays a key role as a transportation hub. It also offers an amazing array of art, culture and culinary delights. A visit to InnoTrans in Berlin can be perfectly combined with unique experiences far away from the trade fair floor.
